

Employment Opportunity

Clinical Veterinary Pathologist

Melbourne

Applications close: 31st January 2021

- Full time or part time position (flexible)
- Work with a fantastic team of pathologists
- Melbourne, Australia

Gribbles has dedicated veterinary laboratories in Melbourne and Adelaide. We provide a diagnostic pathology service for companion animals, livestock, laboratory, biosecurity, zoo animals and wildlife. We also have an active molecular division involved in the development and provision of veterinary diagnostic and screening tests using the latest molecular techniques. Gribbles is Australian owned and backed by the broader network of Australian Clinical Labs, Australia's third largest pathology provider.

A fantastic opportunity exists for a veterinary clinical pathologist to join our Melbourne team in a dynamic leadership role.

The client focused role will involve interpretation of diagnostic tests, telephone consultation with submitting veterinarians and managing quality standards through QC and QA programs.

You will thrive on developing strong working relationships with laboratory staff and clinical veterinarians and enjoy supporting the business through continuing education seminars for clients.

As an experienced diagnostic pathologist, you have exceptional veterinary diagnostic laboratory knowledge and can demonstrate a history of providing high quality, client-oriented pathology. Essential to this position is a veterinary degree suitable for registration in Australia. Board certification by the ACVP/ECVP or Fellowship of the ANZCVS is preferred but not essential.

To submit your application please forward your resume and a brief covering letter by email to Julian Ryall, General Manager of Gribbles Veterinary Pathology, julian.ryall@gribbles.com.au Alternatively, for a confidential discussion, please contact Dr Christine Bayley on christine.bayley@gribbles.com.au

Your interest will be treated in the strictest of confidence.
